EXPERIENCE

- **Sipartech** Toulouse, France
Data Analyst Feb 2025 – Present
Creation of a position among the GIS team. Goal of facilitating data management for the Pre-sales team.
 - **Pre-sales Quotation Generator:** Updated the .xslm worksheets handling pre-sales quotations according to infrastructure PM's experiences. Refactored and improved VBA macros robustness. Halved the 4000 lines legacy code. Heavily simplified output readability.
 - **QGIS Plugins:** Built a .kmz generator to GAFAM clients topological standard. Added Simplex Noise for privacy. Automated DICT/ATU utility response workflows, completely replacing Sogelink and saving the company €40k/year in software licensing.
 - **MC80a Home One Tydirium:** Architected an end-to-end multi-layer routing and pricing ecosystem, version controlled and packaged (git / docker) to unify and simplify business processes. Built a REST-like API (FastAPI / PostGIS) backend, a PyQGIS plugin front for Pre-sales team, and endpoint documentation (pydantic) for IT department (Dolibarr). Replaced legacy VBA macros and local pg_routing implementation with a server-side SQL routing and pricing engine (PL/pgSQL). Established an ELT pipeline (dbt + Oracle FDW) for live data sync. Added visualization tools (pg_tileserv).
- **Sabbatical** Mont-Saint-Michel, France
Spiritual Retreat Mar 2023 – Dec 2024
As I understood the importance of spiritual strength and sturdiness, I focused on deepening my life experience.
 - **Personal Introspection:** Dove into family history, gathered testimonies and knowledge on my cultural heritage.
 - **Spiritual Journey:** Begun spiritual education within the Community of Saint Martin in Mont-Saint-Michel.
- **SNCF** Lyon, France
Data Integration Intern Apr 2022 – Sept 2022
Among SNCF regional head management, contributed to a €30M project replacing legacy railway planning tools.
 - **Data Transformation:** Developed regex-based regional data collection tools and CSV import modules for the Hastus system.
 - **Workflow Optimization:** Delivered heavy data files (100MB) across multiple R&D teams and provided expertise on railway "sillon" (track access) data.

EDUCATION

- **University of Caen Normandy** Normandy, France
Master of Science in Applied Mathematics, Statistics and Decision Analysis 2019 – 2022
TL;DR: Built core notification services and high-volume data ingestion pipelines
- **University of Caen Normandy** Normandy, France
Bachelor of Science in General Mathematics 2016 – 2019
TL;DR: Built core notification services and high-volume data ingestion pipelines

PROJECTS

- **QuantSoftware Toolkit:** Open source Python library for financial data analysis and machine learning for finance.
- **GitHub Visualization:** Data visualization of Git log data using D3 to analyze project trends over time.
- **Recommendation System:** Music and movie recommender systems using collaborative filtering on public datasets.
- **Mac Setup:** Book that gives step-by-step instructions on setting up developer environment on macOS.
